## J. D. BLACK MARKETS NO. 1 OF 1924 CROP

The first bale of 1942 cotton was brought to Cameron Friday by J. D. Black of Jones Prairie.

The bale weighed 482 pounds and was ginned from 1470 pounds of seed cotton. The seed sold for \$22.75.

The bale will be auctioned off Saturday, it was announced by L. Van Perkins, Manager of the Chamber of Commerce.

The Jones Prairie section has produced more first bales than any other section of the county.

The bale was ginned at the Matyastik & Sons gin in Cameron. A premium will be paid.

## NAZI SPIES LOSE OUT BEFORE SUPREME COURT

The United States Supreme Court Friday upheld President Roosevelt in ordering a military court martial for 8 Nazi spies landed here by German submarines and who confessed they had come to destroy war industries.

Defense attorneys for the 8 saboteurs took the case to the Supreme Court hoping to get the men before a civil court.

The spies have confessed their crime. They were arrested shortly after they were put ashore with quantities of explosives and plans for destroying war industries, power plants and dams.

A similar opinion was rendered by the Supreme Court under President Lincoln who ordered a military court martial for men accused as spies.

The case has been under trial for several weeks and much more consideration has been given than the men deserve. There has been no question of the fairness of the trial, as all men confessed.

President Roosevelt has the final review of the case and he may set aside the verdict on the men, if death penalty is imposed, or he may let it stand.

## Japs Mass 400,000 Men in Manchukuo

The Japanese have massed 400,000 soldiers in Manchukuo, said a broadcast Friday.

Various reports to have moved up for an attack on Russia, the Japs are expected to open an offensive on the Reds' far eastern lands in Siberia.

This would properly support the Axis plan of attack. Delay or inability of the United States to fight was contributing directly to the defeat of Russia.

Nine Japanese bombing planes were shot down over Port Darwin Thursday when a fleet of 49 came over for the attack. United Nations airmen also hit a Jap transport in the battle.

## FIRST BALE BRINGS A TOTAL OF \$114.33 HERE

Milam county's first bale of 1942 cotton was sold at 10c per pound Saturday morning when auctioned off on market row in Cameron.

The new bale sold at current market price and was purchased by John Matyastik of Clarkson who ginned the bale Friday on the Matyastik & Sons gin there.

J. D. Black produced the bale. It was not the first bale that Mr. Black has produced to get the premium in Cameron. The seed was sold for \$22.75. The total amount the new bale brought was \$114.33.

L. Van Perkins, manager of the Chamber of Commerce, said that a premium would be raised for Mr. Black for producing the first bale. According to Mr. Perkins there was little bidding on the new bale.

Mr. Matyastik said his gin at Clarkson is in tip top shape for the coming ginning season. Continued dry weather will be unfavorable for cotton lacking moisture to mature. Within the next week gins will be running.

The first bale of 1941 cotton was ginned here on August 6th.

A. W. Boyd is celebrating his 94th birthday today, August 6, 1942. He is living with Neil Ethridge in Cameron. He was born in South Carolina, and has been a resident of Cameron for more than 50 years.

Neither the accused nor the public knew what the verdict was. It was said that no announcement was looked for before Tuesday and maybe not then.

The findings of the court martial will go direct to the President who will have final say in the matter of the punishment of the men, all confessed guilty.

It was believed the President would not permit their execution but would permit them to serve a prison sentence.

## Cameron Party Guests for Week End on Ramsey Farm in Home of Mr. and Mrs. Clarence Hopkins; See Prison Life on Farms From the Inside

The Texas Prison system, often criticized and little known to the average Texan, when seen from the inside is one of the most interesting and certainly one of the best operated prison systems in the world.

Last week end a party of eight, Senator and Mrs. Kyle Vick of Waco; Mr. and Mrs. Cecil Criswell of Buckholts; Mr. and Mrs. E. B. Heyer of Buckholts and Mr. and Mrs. J. B. White of Cameron, left the city in the late afternoon of Saturday to go to the Ramsey Farm to be guests of Mr. and Mrs. Clarence Hopkins.

The party, after a most enjoyable trip down, reached the Hopkins home at 11 p. m. where a dinner was waiting, as well as some fine hospitality the party is not apt to forget.

Mr. Hopkins has been with the Texas Prison system for several years. Before taking over his present place as assistant manager of the farm, he was superintendent of Live-stock for the Prison System. Mr. and Mrs. Hopkins formerly lived at Buckholts. Mrs. Hopkins is the former Miss Hope Blankenship, a cousin of Cecil Criswell.

Mr. Hopkins has made good with the system and is doing a splendid job on the Ramsey Farm. His efficiency and good management must be seen to be appreciated. His section of the farm comprises 2500 acres and this land is worked with 85 negro convicts who have tractors as well as work stock.

On the farm not more than 300 yards from the Hopkins home is a field of cotton, 450 acres which will produce about 700 bales.

It would be difficult to visualize a more ideal farm location. The Ramsey Farm, not far from the Darrington, managed by Otto Stewart of Waco, is reached from Sugarland and contains 17,000 acres in the great valley of the Brazos. The soil on this farm is red from silts brought down through the centuries from the great plains of Texas by this Father of Texas Waters, the Brazos. The farm is level, broken slightly by creeks that look like irrigation canals, and here and there a plantation home.

The Hopkins home, built years ago, is of early plantation architecture, a high walled, spacious white house, in a growth of cotton wood and sycamore, beautiful with shrubs, many of them native and Texas wild-flowers. Nearby and stretching for some distance are the barracks of prison guards and beyond, like the slave quarters of the old south, are the cells where convicts are locked in at night.

Along the barrack way are two driving lanes, lined with trees and just west is a stream, one of many

that empty into the Brazos, all fed by artesian wells and springs. East and stretching as far as the eye can conveniently distinguish, lies the plantation acres, rich as the valley of the Nile and showing every evidence that Clarence Hopkins' good farming methods are yielding returns for the state.

L. G. Butts of Maysfield, is one of the Prison guards at this farm and a valued employee.

In the home Mrs. Hopkins commands a number of negro servants, all trustees at the farm. The meals are served family style in the spacious dining room and eight hungry tax payers ate three of the best meals of their lives. Every item of food on the table with the exception of the bread is produced on the farm. Not far away is the big sugar mill. There are packing plants, refrigerator systems and every modern food preserving service known.

The party plans to accept an invitation to return to the farm again in November to see the harvest of sugar cane and to see the sugar mill in operation.

The convicts are well fed and well treated. They have religious services and picture shows.

Early Sunday morning the guests were awakened early for breakfast for a bloodhound chase was being arranged at the barns. Up the driveway came the music of the pack and already a trusty had been detailed for a run through the plantation. After the negro had proceeded two thirds of the way, some five miles, the dogs were released. Often the guard has to ride his horse a fast canter to keep up with the dogs. The negro was trailed and bayed in a tree near the cell block within about 10 minutes. It was all in demonstration of how the dogs are used.

The dogs will attack a convict and if there is no tree convenient when he is overtaken, they are sometimes killed, or badly torn.

In the afternoon a ball game between competing teams was enjoyed. Some of the players would do credit to the big leagues.

Early that morning an invitation was brought in person from Mr. and Mrs. Stewart for supper on the way back to Cameron at the Darrington farm. This farm accommodates about 350 convicts and the Stewart home is situated alongside a 30 acre lake and one of the most beautiful in the system. The supper was served family style featuring southern fried chicken. Mr. Stewart no doubt is one of the best informed and most efficient men in the system. The hospitality of this home, enjoyed for an hour was greatly appreciated. The guests plan to accept an invita-

tion to return this fall.

Leaving Darrington the party returned to Cameron, reaching the city at 1 a. m. and going on to Buckholts where Senator Vick and Mrs. Vick spent the remainder of the night in the home of Mr. and Mrs. Cecil Criswell.

(Visitors are called people from the free world.)

## Demo. Chairman to Be Named in Run-Off Election On Aug. 22

A write in for Chairman of the Democratic Executive Committee failed to name a chairman, it was disclosed here Saturday when the official vote was certified by John B. Henderson, County Chairman.

Mr. Henderson, who declined to file again for re-election, received 90 votes, but was like former President Calvin Coolidge, does not choose to run.

The Executive Committee voted to

certify the names of the two leading write in candidates, neither of whom have agreed to run.

The recognized procedure should have been the resignation of Mr. Henderson as Chairman at the meeting in

July. The committee could then have certified a name. If Mr. Henderson does not choose to run on August 22, his resignation could have settled the matter as the committee could now certify a name by choosing

someone who will agree to run.

Mr. and Mrs. E. F. Hunter and Berkley Hunter of San Antonio, were Sunday visitors with their aunt, Mrs. India Stidham.

## National Farm Loan To Save Ranchers and Farmers Much Money

Farmers and ranchmen of this territory served by the Cameron National Farm Loan Association will save approximately \$20,055 during the next two years through continued low interest rates on Federal Land Bank and Land Bank Commissioner loans. P. S. Graves, Secretary-Treasurer of the association reported Wednesday.

The saving, Mr. Graves explained, results from legislation recently passed by congress, which continues through June 30, 1944, the 3 1-2 per cent interest rate on long-term Federal Land Bank and Land Bank Commissioner loans.

The Cameron National Farm Loan Association has approximately \$663,500 in loans outstanding.

## Freak Melon Shown In Cameron Saturday

A watermelon, shaped like a cushion, entirely yellow in color except four green stripes separated by yellow stripes, was displayed here Saturday by Johnson Biggers, negro farmer on the Sneed plantation near Cross Roads.

On the vine where this melon was grown is another of the same kind and one large green Alabama Sweet.

They are the only melons of the kind in the patch. No such melons have ever been seen here and the growth vexed many local authorities. Mixture of pollens or such methods for crossing melon breeds may have been responsible for this freak.

The verdict in the case of 8 German agents tried by a military court in Washington, was still a secret Tuesday and the fate of the men is in the hands of President Roosevelt.

The expected announcement Monday or Tuesday did not come and there was no information concerning the fate of the men. Public speculation was that the men had been given the death penalty with one to be spared because he became a government witness against his 7 companions in crime.

## REDS AND NAZI ARE LOCKED IN BATTLE

The most bitter fighting since the war broke out in 1939 was under way before the approaches to Stalingrad Tuesday as the mighty German and Russian armies were locked in battle which was decisive and expected momentarily to decide the fate of the whole of the Caucasus.

The Germans were reported advancing in the Stalingrad area but were meeting the most bitter resistance. Dead on both sides were reaching a monumental figure. The Reds were making the Germans pay a price they cannot afford to pay, said a communication.

The Germans will not be able to long stand the terrific slaughter which has ensued since the Russians received the no retreat order from Josef Stalin.

A new threat was developing as the Germans were reported landing on the Kerch peninsula for what may be a large scale attack. They were being bombed by the Reds.

## Former Cameron Girl Now Commissioner to Succeed Husband in Dallas County; Dallas News Praises Mrs. Harris Highly For Work

Mrs. Fred Harris, the former Miss Gussie Hubert of Cameron, daughter of Dr. W. R. Hubert, has just been named county commissioner in Dallas County, succeeding her husband who has enlisted in the Navy. Here is the comment of the Dallas News:

No rubber-stamp County Commissioner will be Mrs. Fred Harris, appointed Wednesday by County Judge George Harwood to serve out the unexpired term of her husband, who resigned, effective July 30, to enter the Navy, her friends said Wednesday.

"She is a capable executive, thoroughly conversant with governmental affairs and well able to give District 4 a good administration as Commissioner," said Murrell L. Buckner, a friend of the family for many years.

Mrs. Harris has been active in Dallas club and church affairs, but she said Wednesday the care of two children is limiting the time she can devote to organization work. The added duties of the Commissioner's office will leave her little time for play during the next six months, she said.

She is secretary of the Dallas Federation of Women's Clubs, and among the first to express pleasure at her appointment was Mrs. S. C. Bovell.

immediate past president of the club. "Judge Harwood could not have chosen a better qualified successor to Mr. Harris," she said.

Mrs. Harris is a member of the Two Arts Club, the Oak Cliff Lions Club Auxiliary and Calvary Baptist Church. There two children are Carol Ann, 5, and Diane, 2.

Mrs. Harris the former Gussie Merle Hubert, was born in Cameron, Milam County, 33 years ago. She attended the public schools of Cameron, then went to the University of Texas. She left the university to teach in the public schools of Milam County for several years, then went to Austin as private secretary to the late Claude D. Teer, chairman of the State Board of Control.

In 1935 she was married to Harris while he was serving in the Legislature as a Representative from Dallas.

As Commissioner, she will direct the work of seventy-five men in the building and maintenance of the 400 miles of road in District 4.

The other Commissioners probably will lean heavily on her for advice in matters of welfare and education in the county.

One of the first tasks to confront her when she takes office Friday will be preliminary work on next year's county budget.

## Army Signal Corps Seeks Specialists

Opportunities have been opened by the War Department for the enlistment of communications specialists for direct assignment to the Signal Corps of the U. S. Army and the Army Recruiting Service desires to contact men with qualifications along that line, according to a statement made today by Sergeant L. A. Gunn, recruiting officer in the Post Office building in Temple.

The following occupational specialists are needed for the Signal Corps: radio operators and repairmen, telephone cable splicers, installer-repairmen, repeatermen; telegraphic printer installer-repairmen, operators and wire chiefs. Formerly provisions were made for direct assignment or radio operators and repairmen only.

Qualifications for radio operators, repairmen and telegraph operators may consist of a recognized radio or aelegraph license or membership in either the Radio Manufacturers Service (RMS) or Radio Servicemen of America (RSA), or who at the time application for enlistment is made are actively engaged in radio service work, or are graduates of a recognized radio school.

Qualifications for cable splicers, installer-repairmen, repeatermen, and wire chiefs may be evidenced by a letter from a commercial communication company stating that the individual concerned has had experience in one or more of the above specialties.

## Bale to Acre Cotton On Sherwood McClaren Farm Near Cameron

Bale to the acre cotton, the Watson variety may be seen on the Sherwood McClaren farm near Cameron.

A stalk of this cotton is on display at the Herald plant. Mr. McClaren said that he has about 20 acres of this kind. Continued dry weather will insure full production.

This cotton survived one overflow. Mr. McClaren, like many other land owners along Little River place great faith in the possibilities of flood control if dams are constructed. Thousands of acres can be reclaimed all along the river if flood waters are harnessed.

## Negro Boy Scouts Attend Camporal at Prairie View College

Troop 313 B. S. A. attended the State Camporal at Prairie View College from July 20 to 25, and Maysfield neighborhood Troop also attended.

There were about 500 Scouts and Scout leaders present. The outstanding Inter-Racial leader, Stalney Harris from New York was one of the great White leaders present.

Troop 313 had an enrollment of six Scouts and Scoutmaster. Maysfield, a much older Troop had thirteen present.

The camp was very wonderful. Some honors were brought back by the local Troop. The Scouts of Cameron won first place rating in "fire building and water boiling" Walter Redd, G. T. Poole and H. L. Smith passed in second class cooking, rope making and tin can craft.

The trip was very educational and we hope soon to apply some of the work to our local doings.

We are trying to do all we can to aid National Defense and have the backing of fine committeemen a great commissioner and executive.

Dr. E. H. O'Neal and family of Rosebud came through Cameron on their way to Houston to spend a few days with friends and relatives.

## Demo Committee In Session Here Saturday

Results of the primary election held on Saturday, July 25th, were certified by John B. Henderson, Chairman of the Democratic Executive Committee, here Saturday afternoon when the Convention began at 2 p. m.

At 2 p. m. Mr. Henderson had received certified delegates from only one box, Milano. It was therefore the privilege of Milano to take over the convention and to conclude its deliberations. No others could legally take part in the convention.

Mr. Henderson, as Chairman of the Executive Committee, is ex-officio chairman and called the convention to order. After that permanent officers were named. Milano was the only box reporting.

The official canvas of the ballots from the Saturday election will be printed in Monday's Daily Herald.

Mr. Henderson said there would of necessity be a run off contest in a number of places for Executive Committeeman.

A run off will be necessary in the race for County Commissioner in Precinct 1 between W. E. Kdzal and B. M. McMillion, incumbent.

## BEN ARNOLD 4-H CLUB NEWS

At a Ben Arnold girls 4-H club meeting Wednesday afternoon, July 15 at Mrs. E. E. Coker's home there were 12 club girls, the sponsor, and 2 visitors present. The program given by the club was on good grooming. It was very interesting.

After the meeting refreshments of ice cream and cookies were served.

Miss Albinka B. Merka is on her vacation to Hot Spring. On her return she will spend a few days at her home before going back to her work in Houston.

## RED ARMY IN PERIL AS WAR SEEMS LOST

The Red Army was in grave peril and its commanders sought desperately to save it from disaster as the Germans turned on the heat in the drive for the Caucasus.

Moscow said that the army is no longer defending the rich oil fields of the near east but trying to save itself from destruction.

The war in Russia seemed lost to the Reds and United Nations as the Germans swept on to overcome all resistance. Thousands of new troops and equipment plus dive bombers were being thrown into the battle as the Russians reeled back and were prevented from making a stand.

Based on the reports at noon Wednesday there were little hopes that Russia could be saved, though several weeks will be required for the Germans to complete the knock out. Hitler was fighting with all the fury of a maniac to complete his Russian campaign.

## GERMAN DEAD LITTER DON RIVER FIELDS

German dead litter the Don River battlefields much as they littered Flanders in the last war. Staggering losses have been admitted on both sides. The Germans, despite losses in men and materials push on. The Hitler drive is now in full swing.

The Russians were halting the Germans in practically every sector of the battle front, indicating the Reds may be bringing up their reserves, said to be massed back of the present Don River lines. The plight of the Red army was critical and it was agreed that the Russians cannot be saved except by aid of a second front against Germany.

## DUSSELDORF BLASTED 32 BOMBERS ARE LOST

Dusseldorf was heavily bombed by RAF planes Friday night and the British report loss of 32 bombers.

The loss would indicate that a large number of planes took part in the raid, the sixth of a week of incessant hammering by the British of industrial Germany.

The city, not far from Cologne, was badly damaged by the British bombers.

Dispatches from Washington early Saturday indicated that there might be some inclination in the capital to discuss a second front. The people of Russia are disappointed at the action of both Britain and the United States.

The Red armies are in grave peril, though the Russians have routed the Nazi in some places.

The Egyptian battle front was quiet. No doubt the British are wait-

ing for General Rommel to receive re-inforcements.

## Charlie Smith, Jr. Enlists in Army

Pvt. Charlie Smith, Jr., was back in Cameron Tuesday after enlistment in the army.

He will report for duty in a few days, or as soon as he has closed out his business affairs here.

Pvt. Smith, a Cameron lawyer, volunteered. He will be attached to the Medical Corps at Fort Sam Houston for the present.

In enlisting as a private in the army Smith displays a worthy desire to serve his country. He overcame a Class B classification due to his eyes by making a special appeal to the Colonel and besides has a wife and a small daughter and was in Category 4 under local draft board.

Many friends here and over the county congratulate him and are proud of his unselfish example.

# CROWN SHORTAGE SOLVED!

## New Crown Salvaging Department Employs 30 People!

In order to save metal for the war effort, effective June 1st, the Government reduced the use of bottle caps to about 60% of this year's requirements. This creates a national shortage in bottle beer of approximately 40%.

The two machines shown above automatically reshape and sterilize PEARL Beer caps, with the result that we salvaged more than enough caps to offset this loss of 40%. As a result of these machines, which were built in our own shops, our plant is now operating at top capacity. Our June-July sales are the greatest in all our 56 years of continuous operation.

BOTTLE OF PEARL. PLEASE!

Bottle caps will not be a problem with us so long as our distributors and the dealers continue to cooperate by saving them for us. Our enlarged brewing capacity, however, is not sufficient to make up for the shortage in the many other brands on the market. For this reason, PEARL Beer is often not available at your favorite dealer's place of business today.

We have not discontinued selling any dealer, nor have we eliminated certain territories in order to sell more beer in some more favorable localities. We are giving all of our distributors and dealers their full share of beer, to the limit of our brewing capacity. Although there is no shortage of PEARL Beer, therefore, we are simply unable to supply the additional demands for PEARL Beer caused by the shortage in other brands throughout the State.

Saving and salvaging beer caps represents tremendous additional revenue to the Federal and State Governments, because each case of beer produced from salvaged caps yields an excise tax of 53c which would otherwise be lost! Incidentally, it provides more beer for those who say, "Bottle of PEARL, please!"

# New Regulations? No, Old Regulations!

Subscriptions are not permitted if your paper is not paid in advance. This is an old regulation and has been followed for years by The Herald.

Due to war conditions which to some extent have cut down the supply of news print, all surplus reader lists are cut down. By this we mean unpaid and complimentary numbers.

LOOK AT THE DATE on your Herald. If it is near expiration renew at once. Otherwise you will miss your next copy.
